

Welcome

Dear Parents,

Thank you for considering Sinai College for your child.

Sinai College is proud of its small school status, whilst boasting state of the art facilities, including tennis courts and a full size swimming pool. We believe students learn best when they can receive individual attention, and where their specific learning needs can be met.

Sinai College embraces diversity, fostering individual achievement and community spirit. We value rigorous, life-long learning, creativity, community service and self confidence, which we instil through active role modelling and through a firm Jewish ethos underpinning all that we do. The staff at Sinai create a loving, nurturing and supportive environment where students can feel both free and supported to develop spiritually and academically.

Students at Sinai College receive modern instruction utilising the ACARA Australian Curriculum across all subject areas. This is complimented with traditional religious studies and embedded culture.

I am humbled to be working with the dedicated educators and committed students of Sinai College, a school that embraces diversity, recognizes individual achievement, values lasting relationships and embeds holistic values in each and every student.

With generous bursaries and scholarships available to qualifying students, we look forward to welcoming you onto our campus soon.

Kind Regards

Christine Harman
Principal
